I have been asked by the Information Officer of the UNICEF  
International  
Child Development Centre to compile a list of organizations that  
study  
the subject "children and war".

I should be most grateful if you would let me know as soon as  
possible  
some details of your organization's activities in this subject area  
and  
whether you produce publications and/or maintain a library or  
documentation centre on this subject.

Thank you very much,

Yours sincerely,

Anne Di Lauro
