Dear Maria Eugenia Rojas,

Please find enclosed a copy of the background paper for the meeting on "Establishing a Child Rights Information Network". This paper provides the background to the network so far, and presents ideas of how such a network would function. The paper will form the basis of discussions at the meeting in Paris.

It is recognised that successful networks are based on the full involvement of member organisations in their creation, management and use. The success of the meeting will depend on the full involvement of the participants in debating the proposals outlined in this paper and in making suggestions of their own.

I hope you find the paper stimulating and I look forward to meeting you in Paris.

Kind regards

Becky Purbrick
Coordinator of the Child Rights Information Network

30 August 1995

Dear Maria Eugenia Rojas, Executive Secretary,

Please find enclosed the report of the meeting in Paris, a little later than I hoped so thank for your patience. You will notice that I have included my workplan in the report and I would welcome your comments on this plan and any other part of the report. The report will be translated into French, Spanish and possibly Arabic and I will circulate these versions appropriately. I have also enclosed a new information sheet on CRIN and its future activities which I hope you will find useful (this is also being translated.)

Over the coming months I will be in regular contact, asking for your comments and advice. This is a crucial time in the development of CRIN and the project proposals so your input is greatly appreciated. I would also like you to contact me if you have any issues which you would like to raise or further suggestions on the project proposals or the management of the network.

Once again, thank you for your support and commitment to this exciting initiative.

Kind regards

Becky Purbrick
Coordinator of the Child Rights Information Network

PS If you have not responded to my letter of 14th August regarding the network newsletter please could send me your response as soon as possible.
