Asunto: International Conference on War-Affected Children

We received from Jayne Stoylesby of NGO Coalition for an ICC a call for application to participate in the conference on War-Affected Children, to be held in Canada in September.

We, PIDEE, Foundation for the Protection of Children Damaged by States of Emergency, are a NGO that during the period of Chilean military dictatorship worked with children victims of repression, giving them humanitarian assistance.

We have a great interest in the Conference, but as we do not have any financial possibility to assist to Winnipeg's Conference, we would like to ask you if we could receive at the end of the Conference, the publications of its results.

We would also know if the Conference will have a web page to read there what is happening in it.

Thank you,

Maria Eugenia Rojas
Executive Secretary
PIDEE Foundation
Casilla 599-11
Santiago - CHILE
